

Ring Sizing Chart

Use this chart to help you select the correct ring size for your finger. Please ensure the 'Scale to Fit Page' option is unchecked before printing this page.

OPTION 1: MEASURING YOUR FINGER

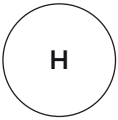

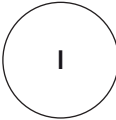

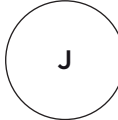

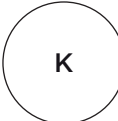

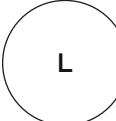

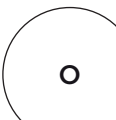

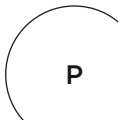

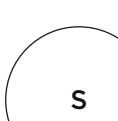

If you do not have any existing rings to use as a size reference, this measuring template can be used to size your finger to the European Sizing scale.

1. Print this page and cut out the Ring Sizer template above. Cut a slit along the dotted line beside the arrow.
2. Place the Ring Sizer around your finger, then slip the narrow end through the slit with the letters facing out.
3. Tighten the Ring Sizer by pulling the pointed end toward your finger. The fit should be snug but comfortable.
4. Make note of the letter that most closely aligns with the slot in the Ring Sizer.

OPTION 2: MEASURING AN EXISTING RING

If you have an existing ring available, it is easy to align the ring with one of the circles below. Place the existing ring with the inside edge of the ring fitting against the closest matching circle size. If the ring falls between two sizes, order the larger size.
